fri-The Germania Musical Society gave their first Grand Concert, of the ecason, at the Ocean House Hall, on Wednerday evening, to a large and fachionable audience, all of whom were delighted with the sweet sounds of these. favorite musicians. Their Programme was very attractive, and it would be difficult to discriminate between the pieees, to such an extent as to say which was the best. "Sounds from Home," as played by Mr. Shultze was loudly entered, and he repeated it to the great gratification of all present. We hope to hear the Germanians again soon.

The elocutionary entertainment in Bellerue Hall en Wedsteeday evening, notwithstanding the unavaidable collision with the Germania Concert occurring at the same hour, was attended by an audience, that gave such promise as, we drest, will, this evening and the rest of the course, be amply realized. In his readings from Sunkespeare, Mr. Rassell seemed to us, on this occasion, to surpass all his forance representations of the great Poet.-The mirth of the melancholy Jacques the transitions of the madeap Mercutio, the loyalty of noble old Adam, were admirably expressed. Jacques's laugh

"A fool ! a feel ! I not a fool in the forest !" rang out well through the green areades, and so did Mercutie's in the description of Queen Mab's team, which was given with exquisite effect and should be repeated; and the recital of each trick of the Bury drew hearty applause from the audience. Moreutia's droll reported his sensations when wounded, was capitally done and that "reratch" was a de cided point. There are still cumors of increasing difficulties between the Porte and the Pacha of Egypt. The Russians have ngain been worsted by their implacable enemies the Caucasians. The proceedings respecting the fate of Kossuth are all concealed in the strictest diplomatic obscurity.

The weather in Paris has been exces. sively hot. At the review in the Champ de Mars eight soldiers died in conse quence of the heat.

The news from Germany is of little importance. General Radowitz has bought a house at Erfort, where he intends to reside, and devote himself to scientific pursuits.

As far as politics are concerned, the advices from India by the Overland Mail are tranquilizing, everything quiet except the elements. A frightful series of hurricance had swept Ceylon and the southern peninsula of India. It was necertained that sixteen vessels had perished, and great fears were entertained of further disasters. The steamer Bombay was six days overdue from Ceylon. At the Mauritius several vessels were dismasted by the hurricane which extended as far as the island in

The act was no doubt perpetrated by incendiary Lacours, who have nearly amounting to a quarter of a million sterling.
